2. Transmitting Stations.

- a. Balatonszabadi. This is a 135 kw. station, i.e. the same as Lakihegy. It must be in operation by now.
- b. Nyiregyhaza is a 25 kw. station and has been in operation about a year. It lies about 4 km. southeast of the town. AVH officials arrived there 4 days after the first trial switch-on, with a list of the wave lengths and times for which jamming transmissions were to be sent out. There are always two AVH men sitting in the transmitting room.
- c. Kekes. No information available.
